WASTEWATER SYSTEM AND POTABLE WATER SUPPLY PERMIT

LAWS/REGULATIONS INVOLVED
Environmental Protection Rules
Chapter 1, Wastewater System and Potable Water Supply Rules,
Effective September 29, 2007
Chapter 21, Water Supply Rules, Effective April 25, 2005

Case Number: WW-138-1210 PIN: EJ07-0049

Landowner: Kathleen O'Brien
1971 Spear Street
Charlotte, VT 05445

This permit affects property identified as Town Tax Parcel ID# 00002-1971 and referenced in deeds recorded in Book 198 Pages 621 & 622 of the Land Records in Charlotte, Vermont.

This project, consisting of construction of a mound wastewater disposal system in the former and expanded designated replacement area for Lot #1 of a 2 lot subdivision and an on-site drilled well for Lot #2 of the subject property, an 18.15 acre parcel located on Spear Street in Charlotte, Vermont, is hereby approved under the requirements of the regulations named above, subject to the following conditions.

GENERAL

1. This permit does not relieve the permittee from obtaining all other approvals and permits as may be required from the Act 250 District Environmental Commission, the Department of Environmental Conservation, Water Supply Division-telephone (802)241-3400, Water Quality Division-telephone (802)241-3770, the Department Public Safety, Division of Fire Safety-telephone Williston Regional Office (802)879-2300, the Department of Health-telephone (802)863-7221, and local officials **prior** to proceeding with this project.

2. The project shall be completed as shown on the following plans which have been stamped "approved" by the Wastewater Management Division:

   Dwg. 1 of 3; "Overall Subdivision Plan" dated April 10, 2012; Dwg. 2 of 3; "Site Plan and Drilled Well Detail" dated April 10, 2012; and, Dwg. 3 of 3; "Wastewater System Details and Notes" dated April 10, 2012 prepared by Jason S. Barnard, Licensed Designer #430-B.

The project shall not deviate from the approved plans in a manner that would change or affect the exterior water supply or wastewater disposal system, building location or the approved use of the building without prior written approval from the Wastewater Management Division.

3. The conditions of this permit shall run with the land and will be binding upon and enforceable against the permittee and all assigns and successors in interest. The permittee shall be responsible for the recording of this permit in the Charlotte Land Records within thirty, (30) days of issuance of this permit and prior to the conveyance of any lot subject to the jurisdiction of this permit.

4. Each prospective purchaser of the lot shall be shown copies of the Wastewater System and Potable Water Supply Permit and the approved plans prior to conveyance of any lot.

5. This project has been reviewed and approved for construction of a mound wastewater disposal system for Lot 1 and a new drilled well on Lot 2. The permittee shall not construct any type of structure requiring plumbing, including public buildings, duplexes, condominium units, or commercial buildings, without prior review and approval by the Wastewater Management Division. Such approvals will not be granted unless the proposal conforms to the applicable laws and regulations.

6. All conditions set forth in Permit #WW-4-2771 shall remain in effect except as modified or amended herein.

7. The Wastewater Management Division now reviews the water supply and wastewater disposal systems for all buildings under 10 V.S.A., Chapter 64-Potable Water Supply and Wastewater System Permit.

8. This permit shall in no way relieve you of the obligations of Title 10, Chapter 48, Subchapter 4, for the protection of groundwater.

9. A copy of the approved plans and this permit shall remain on the project during all phases of construction and, upon request, shall be made available for inspection by State or local personnel.

10. Any lot depicted on the plans and not specifically referenced as being approved for a use requiring a potable water supply and wastewater disposal system shall comply with the Environmental Protection Rules, Chapter 1, Wastewater System and Potable Water Supply Rules, Effective January 1, 2005, Section 1-403 (a)(5) for the creation of unimproved lots.

WATER SUPPLY & WASTEWATER DISPOSAL

11. No permit issued by the Secretary shall be valid for a substantially completed potable water supply and wastewater system until the Secretary receives a certification from a designer or the installer, signed and dated, that states:

    > "I herby certify that, in the exercise of my reasonable professional judgment, the installation-related information submitted is true and correct and the potable water supply and wastewater system were installed in accordance with the permitted design and all permit conditions, were inspected, were properly tested, and have successfully met those performance tests."

    This shall include the water supply and wastewater disposal systems, and, water service and sanitary sewer lines to each structure.

12. The project is approved for use of an existing, on-site water supply system from a drilled well for Lot #1. Lot #2 is approved for an on-site water supply system from a new drilled well. The Wastewater Management Division shall allow no other method, or location of obtaining potable water without prior review and approval.

13. The project is approved for wastewater disposal by construction and utilization of the site-specific wastewater disposal systems depicted on the approved plans. The Wastewater Management Division shall allow no other method, or location of wastewater disposal without prior review and approval.

14. The project is approved for a new mound wastewater disposal system located in the former and expanded replacement mound area on Lot #1 provided the mound is constructed in strict accordance with the following conditions:

    A. Each mound system is to be located and constructed as depicted on the plans that have been stamped "approved" by the Wastewater Management Division.

    B. A licensed designer, who has been determined acceptable by the Wastewater Management Division, shall inspect the mound system during critical stages of construction. This shall include the staking of the location of the mound, ensuring the site has been properly plowed prior to placement of the appropriate sand fill, the installation and testing of the distribution piping, final grading of the mound including side slopes, and pump station installation.

    C. The construction of each mound shall adhere to the guidelines set forth in Section 1-517 (f) of the Wastewater System and Potable Water Supply Rules.

D. The qualified consultant shall inspect the construction of the curtain drain if required.

E. Upon completion of construction, and prior to occupancy of any structure being served by the mound system, the licensed designer, who has been determined acceptable by the Wastewater Management Division, shall submit a written certification stating the construction has been completed in accordance with the stamped plans and the permit.

15. The approved wastewater disposal system for Lot #1has been designed to serve a 3 bedroom single-family residence and a 1 bedroom, accessory apartment. Lot #2 is approved to utilize an existing 4 bedroom capacity mound style wastewater disposal system that formerly served Lot #1. Prior to any increase in bedrooms, the landowner shall submit an application, fee, and engineering plans for review and approval by the Wastewater Management Division.

16. The Wastewater Management Division is to be notified, if at any time the wastewater disposal systems fail to function properly and/or create a health hazard.
