RE: Schofield property, Roscoe Road, Charlotte, Vermont
Wastewater System and Potable Water Supply Permit WW-138-1218

Dear Spencer:

We are writing on behalf of Sandy Schofield regarding the construction of a replacement wastewater system for her house on Roscoe Road. Based on our observations on April 30 and May 6, 2013, and subsequent photos provided by the contractor, we found the wastewater system to be installed substantially in accordance with the approved plans and offer the following statement as required by Item 11 of the above-referenced permit:

"I hereby certify that, in the exercise of my reasonable professional judgment, the installation-related information submitted is true and correct and that the wastewater system was installed in accordance with the permitted design and all permit conditions, was inspected, was properly tested, and has successfully met those performance tests."

If you have any questions or need additional information, please don't hesitate to contact me.

Sincerely,

Brian Tremback
