

May 5, 2014

To The Selectboard,

Kate Lampton presented the Bidinger conservation project to the Trails Committee on April 8th and asked us to comment on the proposal. The project was presented as a strictly farming conservation effort with no applicable trails considerations. After reviewing the map and the project, we understand that that this parcel does not offer Trails benefits and we can support the project.

Thank You,

Margaret Russell
Co-Chair Trails Committee
