**Subject:** RE: Liability coverage related to speed humps installed in town highway

Hi Dean,

The speed bump needs to be MUTCD-compliant and should also include appropriate signage and spacing. I have copied Jeff Theis, your Loss Control Consultant, in this email. Feel free to contact him if you have any questions regarding these requirements. If installed correctly, your liability exposure should be minimal.

**Subject:** Liability coverage related to speed humps installed in town highway

Hi Vicky,

Wondering if there are any issues with insurance coverage (i.e. for liability) with temporary speed humps. The Selectboard is going to discuss the potential for installing one on Monday night. A possible product is attached.

Thank you,  
Dean
