

Partial List of Firewood Suppliers In or Near Charlotte

As Tree Warden, I am often asked: "Where can I buy fuelwood?" This is a pertinent question, since wood is a renewable energy resource. Just make certain that it is sourced from within Vermont in order to prevent importation of emerald ash borer infected wood from our neighboring states. Firewood demand has escalated rapidly in the last few years, and dry wood may be hard to find. It is a good idea to get wood early on, and pile it properly for drying throughout spring, summer and early fall. To assist those facing this question, I have attempted to compile a list of local firewood suppliers, which is posted in Town Hall bulletin board. Listing does not imply endorsement by the Tree Warden or the Town. So far my list includes the following suppliers of both green and seasoned wood:

In Charlotte

Robert Marble 5102 Spear St. 425 2489
Richard Stowe Sheehan Green 425 4411 & 881 4770
