

Update to SAP for Palmer analysis for “existing employees”

May 9. 2016 Rev2

Paygrade placement revisions for current employees remaining in the same position will occur in the budget planning cycle. In order to preclude a bias of the Selectboard, when considering an adjustment to the Palmer Analysis points, the current Selectboard will agree to a change and that change will be review by the next Selectboard after the March Town meeting. If concurrence is reached, the increase in pay will be included in the next budget cycle.
