RE: Request to join Charlotte Safety Committee

Thank you for considering my volunteer request to help out on the Charlotte Safety Committee.

Having been a resident since 1982, I have always been concerned with the safety of our residents on the highway. More recently, the issue of safety for pedestrians and bicycle riders has come under increased scrutiny. There needs to be oversight of these issues by an appointed group, with annual review and reports to our communities governing body. Much thought should be given to all ideas before they are presented and decisions being made.

Hopefully, you all believe that my appointment will be an asset to this group.

Respectfully submitted,

Moe Harvey
