Thanks, Dean.

Good questions. I do know that Burlington's hasn't been there over a winter, so I don't know if this is regarded as "permanent." I'll check on that and the other answers. I figure at the very least we could get crosswalks but why not shoot for something creative?

Hi Susan,

I like it!

Some additional information may be desirable before bringing it to the Selectboard—e.g. how long has Burlington's had theirs in place? What's the cost? How well does it last (e.g. to snow plowing and sand applications)? Has there been any legal analysis or discussion with VTrans as to liability issues?

Maybe we can schedule this for August 22<sup>nd</sup> Selectboard meeting—would that work for you?

Great idea!

Dean

Hi Dean,

I brought up an idea to the Sr Center Board for slowing down traffic on Ferry Road. They approved and asked me to contact you. We'd like to see crosswalks painted from the Sr Center across to Post Office and also from Old Brick Store across the road.

Inspired by Pine Street in Burlington (see below), I suggest that these crosswalks be colorful. I recommend that the town get together with Charlotte Central School on such a project. I know that the principal is eager to engage in community outreach. I've seen quite remarkable artwork on display there, and I'm sure they could do a remarkable job.

Susan Ohanian, member Senior Center Board
