In Regards to PC-20-51-SK-Shifrin Trust -

We are strongly opposed to the proposed 4 lot subdivision. This barely meets the absolute minimum of acreage for so many houses. This neighborhood is set with much larger lots in order to preserve the natural beauty of the landscape. This lot is a natural wildlife crossing - home to many bobcats, deer and other wildlife. This would seriously disrupt their peaceful habitat between Mount Pease and Mt Philo as well as the free landscape that they require to flourish. This is not in the best interest of any of the neighbors - let alone us - a main abutting parcel - and simply reflects a lucrative business idea for the new owners.

Sincerely, Elizabeth Scheuerman
3589 Mt Philo Road
