George and Claire Aube own a 111+/- acre parcel of land located at the intersection of Dorset Street and Carpenter Road in Charlotte. The subject property is improved with a pre-existing 6-bedroom farmhouse and various agricultural buildings. The farmhouse is served by an on-site in-ground wastewater system and is provided water by an off-site drilled well. Mr. and Mrs. Aube propose to subdivide the property and create a 105+/- acre parcel (Lot No. 1 - the remaining land) and a new 5.7+/- acre parcel of land (Lot No. 2). Once the subdivision is approved, Lot No. 2 will be transferred to their daughter and son-in-law and will be improved with a 2-bedroom single-family residence with a 1-bedroom accessory apartment above the garage. The 2-bedroom residence and 1-bedroom accessory apartment above the garage will be served by an on-site performance-based mound wastewater disposal system with an up slope curtain drain and will be provided water by an on-site drilled water supply well.

Wastewater Permit Application – Part V, Section B

Agency of Natural Resources (ANR) Supplemental Information

Review of the State of Vermont, Waste Management Division (WMD), Sites Management Section (SMS) on-line database shows there is one (1) hazardous waste site located within 1 mile of the George and Claire Aube proposed 6+/- acre parcel. A review of the SMS on-line database shows the following:

Site #	Site Name	Status/Priority	Distance from the Aube 6+/- Acre Parcel
98-2342	Walten Property on North Pasture Lane in Charlotte	Low	>4,300 feet +/-

Based on a review of the SMS on-line database, the identified hazardous waste site listed above is a low priority. Based on the status (i.e. low priority) of the identified hazardous waste site and the fact the identified hazardous waste site is on the opposite side of the LaPlatte River, the proposed Lot No. 2 drilled well site is not significantly threatened by the identified hazardous waste site.
