Re: Dr. Edward Melby, et al WW-138-0825

Dear Tom

I am writing to report the completion of the construction of the wastewater disposal for Dr. Edward Melby, et al located at 170 Jolly Club Road in Charlotte. The wastewater system was installed in accordance with the approved plans prepared by Jeffrey Keeney dated 9/15/08 and permit conditions of permit WW-138-0825.

During the course of construction I inspected the Cromaglass unit for water tightness, the plowing, stone and pressure distribution system and pressure test for conformance with the design.

I hereby certify that, in the exercise of my reasonable professional judgment, the installation-related information submitted is true and correct and the potable water supply and wastewater system were installed in accordance with the permitted design and all permit conditions, were inspected, were properly tested, and have successfully met those performance tests.

Feel free to call if you have any further questions or concerns regarding this.

Sincerely,

Jeffrey Keeney
Licensed Designer 377-B
