

I'm concerned about the potential loss of the car parking spaces for both the bus stop and park & ride. From what I heard last night, we'll be losing these places for our town, and instead trucks will be allowed which don't serve the needs of the town. The current use - park & ride for the bus or carpooling - has been serving Charlotters and should be part of any project which is supposed to serve the needs of the community.

I've noticed at the Mobile in N. Ferrisburgh, there are now signs which prohibit parking. This had been a place to park for those of us who do take the bus to CCTA BTV from time to time.

Can you please send my e-mail to the appropriate parties?
