Subject: Re: Landrigan subdivision on spear street

6 August, 2020

Dear Planning Commission:

I would like to thank the Landrigan family for their thoughtful sketch plan. I am in particular favor of keeping their current open land (hay field) as open space. Several neighbors who have subdivided have followed the same pattern of placing a new home at approximately the same distance from the street to maintain the open space to the east (Sara Shays and Kathy O'Brien). This provides a much needed buffer for the wildlife corridor and wetlands that abut all of these east side Spear Street properties.

Thank you for your hard work and consideration, Sarah Thompson
2333 Spear Street
