RE: Denton Corners LLC, Spear Street Hinesburg Rd, Charlotte, WW-4-2704-3,  
Elimination of Off – Site Replacement Disposal Area

Dear Jeannine:

The Denton Corners LLC property was created under WW-4-2704 through WW-4-2704-3. It was created with an off-site disposal area by easement located on property of Hinsdale known as Sheehan-Green restricted farmland. The location of the replacement disposal area (as well as the primary area) is shown on attached Plan Sheet 1. At the time of the original permitting the Vermont Water & Wastewater Rules required that the subject property have a complying replacement mound disposal area, as well as a complying primary mound disposal area. The Rules no longer require a replacement mound disposal area, as long as the primary mound is compliant. The subject property's mound is compliant. It was constructed, certified, and is functioning as designed. When the subject replacement area was set aside for the subject property by easement, Denton Corners LLC agreed that if ever the regulations no longer required a replacement mound, the replacement disposal area would revert back to the ownership and future use of Clark Hinsdale (at a time requested by him). Well, the time has come and I am requesting that an amended permit be issued to Denton Corners LLC that eliminates the mound replacement disposal area.

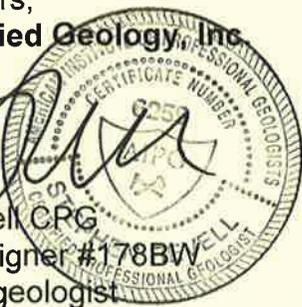

At the same time, it is important to note that Clark Hinsdale III would like to utilize the permitted replacement area for a future project on lands of Hinsdale located in East Charlotte. In this regard, he would like to hold the subject permitted mound disposal area in reserve. I've already indicated to Clark that I was unsure how the permit granting authority would legally memorialize this for future use. In this regard, since Clark is handling the submittal of this application for Steve Denton, he indicated he would deal with this subject directly with you. It may require its own unique WW application and permit that specifically identifies it as a permitted disposal area owned by Hinsdale and located on a specific Hinsdale property for future use.

I believe the Denton Corners LLC permit amendment application is complete with a signed application and ANR Form 5, a permit amendment fee of \$250.00 payable to the Town of Charlotte, 1 copy of Plan Sheet 1 (for non design location purposes only) and 1

copy of this letter. Steve Denton, Clark Hinsdale III and I look forward to your satisfactory review and issuance of the requested permit.

If you have any questions, please give me a call.

Very truly yours,

**ANR Form 5: Certification Statement for Wastewater System and Potable Water Supply Permits when there is no Required Notification of Overshadowed Property Owner(s)**

A person submitting an application to the Secretary for a Wastewater System and Potable Water Supply Permit shall use this statement whenever overshadowing notification of affected landowners is not required (see guidance and instructions for examples).

Note: When the property subject to the permit application is owned by more than one person, only one of the landowners must sign this certification statement even though all landowners must sign the permit application itself.

**I hereby certify that “overshadowing” notification is not required either because there is an exemption to the notification requirement or there are no landowners whose property may be affected by the proposed water and wastewater systems.**
