

Signs Plan

House name signs: Two small signs to name the house (each approx. 1 sq ft) will be placed on the northeast and southeast corner exterior walls of the main house. Or one will be placed on the house and the name will also be present on the proposed directory sign. One proposal is to name it in honor of Zadock Wheeler who built the house, but the name is yet to be determined. Other early property owners were West, Strong and Yale. So the signs would say something like "Wheeler House, circa 1805".

Business directory sign: An approximately 40" wide by 35" high single-sided business directory sign with downward facing LED lighting will be placed parallel to Greenbush Road north of the north curb cut, approx. 2 ft above the ground.

Law firm sign: A small sign will be placed on the main house next to the front (east) door with the name of the law firm.

One-way driveway sign: A small one-way sign will be placed somewhere north of the south curb cut to prevent south-to-north traffic flow in front of the main barn.

ADA parking sign: A compliant ADA sign will be installed next to the accessible parking space.

Private parking sign(s): Private parking signs may be placed next to the 1 or 2 parking spaces dedicated for the apartment.

Thurber, 2848 Greenbush Road, Charlotte, Site Plan Review application, January 2017
